

1. Explain monolithic architecture, service oriented architecture and Micro service architecture.
2. Document the microservice architecture and core components
3. Explain Resilience patterns? Explain circuit breaker with Spring Cloud Hystrix code example.
4. Explain load balancing algorithms.
5. Explain API Gateway.
6. Explain service discovery and service registry
7. List Spring Cloud Modules that serve as Microservice components (e.g. Eureka for Service Discovery)
8. Walk through <https://microservices.io/patterns/index.html>
